Your Guide to Transportation Projects in Las Vegas, Nevada

2004-2005

The City of Las Vegas Department of Public Works works for Las Vegas and strives to meet present and future transportation needs. More than \$250 million in transportation projects are now underway on the streets of Las Vegas and more are planned to start in the coming months. Many of these projects are presented here.*

Project	Description	Ward	Status
Alexander Road and Hualapai Way – Cheyenne Avenue to Cimarron Road	Road and Storm Drainage Improvements, and Traffic Signals at Hualapai Way and Cheyenne Avenue	4	Starts 3 rd Qtr. 2004
Alexander Road and Tenaya Way	Traffic Signals	4,6	Starts 2 nd Qtr. 2005

*Many transportation projects develop roads to increase traffic capacity. Full improvements typically include widening a road to two or three travel lanes in each direction, depending on roadway width, and a continuous turn lane. Work also includes the installation of curbs, gutters, sidewalks, streetlights, storm drainage systems and traffic lights, where applicable. Some roads are initially improved and striped to accommodate two lanes of traffic in each direction. As traffic increases, the newly improved roadway can be re-striped to its full capacity of three lanes in each direction.

Public Works Department Mission:
Plans, designs, constructs, operates and maintains city public use facilities, roadway and traffic network, wastewater and stormwater management systems and regulates private development.
